What to Expect During Your Stay

ADMISSIONS

The admissions office is here to help you from Monday to Friday, 9:00 AM to 5:00 PM, and we're also available remotely during off-hours if you have any questions. Within your first few days with us, an admissions representative will come to meet you, walk you through the admissions paperwork, and collect copies of your insurance cards. We're here to make this process as smooth and easy as possible for you!

PHYSICIAN SERVICES

Each patient at our facility—whether you're here for short-term rehabilitation, a respite stay, long-term care, or hospice services—will be assigned to a dedicated physician group. Your assigned physician, along with their team of clinicians, will be responsible for your care throughout your stay. They will be available to address your daily medical needs and ensure that you receive the attention and support necessary for your well-being.

MEDICATIONS

Medications will be provided by our contracted pharmacy. Upon admission, your hospital discharge medications will be ordered and sent directly to the facility. There is no need to provide your own medications as these are all included in your stay, unless otherwise instructed.

SOCIAL SERVICES & DISCHARGE PLANNING

Our social services department is committed to helping you find the resources you need, whether you're preparing to return home or seeking suitable placement options—be it with family, assisted or independent living, or long-term care within our facility. For those transitioning back to their homes, our social worker will assist in arranging all necessary equipment, coordinating home care services, and setting up outpatient or home therapies. We aim to make your transition as smooth and comfortable as possible, ensuring that both you and your family are well-informed and supported throughout the process.

THERAPY

The goal of our rehabilitation department is to help you regain your previous level of functioning—or even surpass it! We provide in-house physical, occupational, and speech therapy, ensuring that each patient receives a personalized approach tailored to their specific exercise needs. Our therapy services are available seven days a week, including holidays, to accommodate your schedule. Treatment plans are continually updated, and each patient will be scheduled based on their tolerance, individual requirements, and insurance coverage. We are dedicated to supporting you every step of the way on your path to recovery.

LONG TERM CARE

We are contracted with most long term care policies for those who need 24-hour care and we accept private pay as well. Our business office will be happy to explain the process and guide you through the next steps when applying for Medicaid.

The staff at Wynwood is exceptional whenever I go to check in on my mom they make me feel like I'm part of their family and they are my relatives and they are looking after her and making sure she is being taken care of.

- **Niecey C**

Everyone has been great with my care. Alexa with physical therapy is very good. Dr Steven's is fantastic and would recommend him to anyone. The admissions process was great and she checked in on me everyday to see if I needed anything.

- **Mike Cardea**

The enthusiasm of whole facility helps us to learn more and enjoy our rehab stay. They worked me both mentally and physically, sometimes without realizing. Danielle, Amy, Alyssa, Alexa, Chelsea and the weekend boys helped me be well prepared to accomplish safety and my goals. Rosa my aide and Jen the unit nurse were very caring and attentive to my needs.

- **Dominic Grosso**

Everyone was very nice and friendly. The rehab staff was great and rehabbed me back to health. I would recommend this place to anyone.
